

# Blocking Pokemon Go

## Summary

Pokémon Go is a free-to-play mobile app that you can download for iOS or Android. The game works by using your phone's GPS for your real-world location and augmented reality to bring up those cool-looking Pokémon on your screen. In this article, we detail the changes you need to make to ensure it is blocked on your network through SecureSchool.

## More Information

The following will fully block Pokémon Go on your wireless network.

1. Go to Website Filtering > Website Access > Add a Site
  - Website Address: **pgorelease.nianticlabs.com**
  - Reason For Change: **Block Pokemon Go**
  - Filtering: **Blocked**
  - Select all applicable filter sets.
  - Submit
2. Commit Changes and Restart.
